Michel Bullock

INCOTEC Automation (Thailand) Ltd.

(076)-234-543

Dear Mr. Michel

I am writing with regards to **HardwareDeveloper** advertised on <http://th.jobsdb.com/th/th> .
Please find attached my CV, which shows I have the necessary qualifications and experience in the workplace.

My degree course has prepared me well for this position. During my dissertation, I was required to do a lot of independent research, which required self-motivation, and the ability to organise and work on a long term project. In particular, **Operation System** has helped prepare me by **Basic of OS**

I'm attracted to this role, because **need experience from entrepreneur** and I hope that I can demonstrate to you that I would be a good fit for this company, with my proven skills, commitment to the role, and enthusiasm to learn.

Yours sincerely,

Mr. Jaedsada Chaisorn
